# A Short Introduction

## WHAT IS GET-UP-AND-GO?

Going to need more get-up-and-go if you want to succeed by communication tools that can be used as to get solutions of problems.

# The Problem

## TIMMING

It take hours of research and refining to make a exact ,oriented and worout soluton. when they are starting panic because they are just one or two nights behind of their exams and they want something but they get nothing and they lose hope to succeed.

# Why Prepared Solutions?

## EASE AND SIMPLICITY

.we made such kind o search engine in AI base with such ease and simple way that users find any past paper of any board by just 1 search not by any other means.

## ACCESSIBILITY

Users can access it at any time and can find any paper and its solution on that time.

## UNDERSTANDINGS

For its convenience and understanding, we also hired expersts in such a way that if user feels that he is not understandind then he can go to the expert and be able to understand what is going on.

students will be able to participate in self-paced and interactive learning and get solutions on time when they need them, which is otherwise impossible. This shows that the use of interactive features of this application increases the motivation of students for the learning process. If they want to also study on the last day before the exam.

## WHAT WILL BE THE DEMAND

# 78%

By taking hours of research and then refining the research we get able to know that many students make their mind that they will study and prepare exam on last day or 2 or 3 days before exam so they want such kind of hope by which they can able to go through this.

# What will our users want?

A CONVENIENT WAY TO ACCESS OUR  
SERVICES.

# Target Market Overview

STUDY AT  
HOME

FREELAN-  
CER

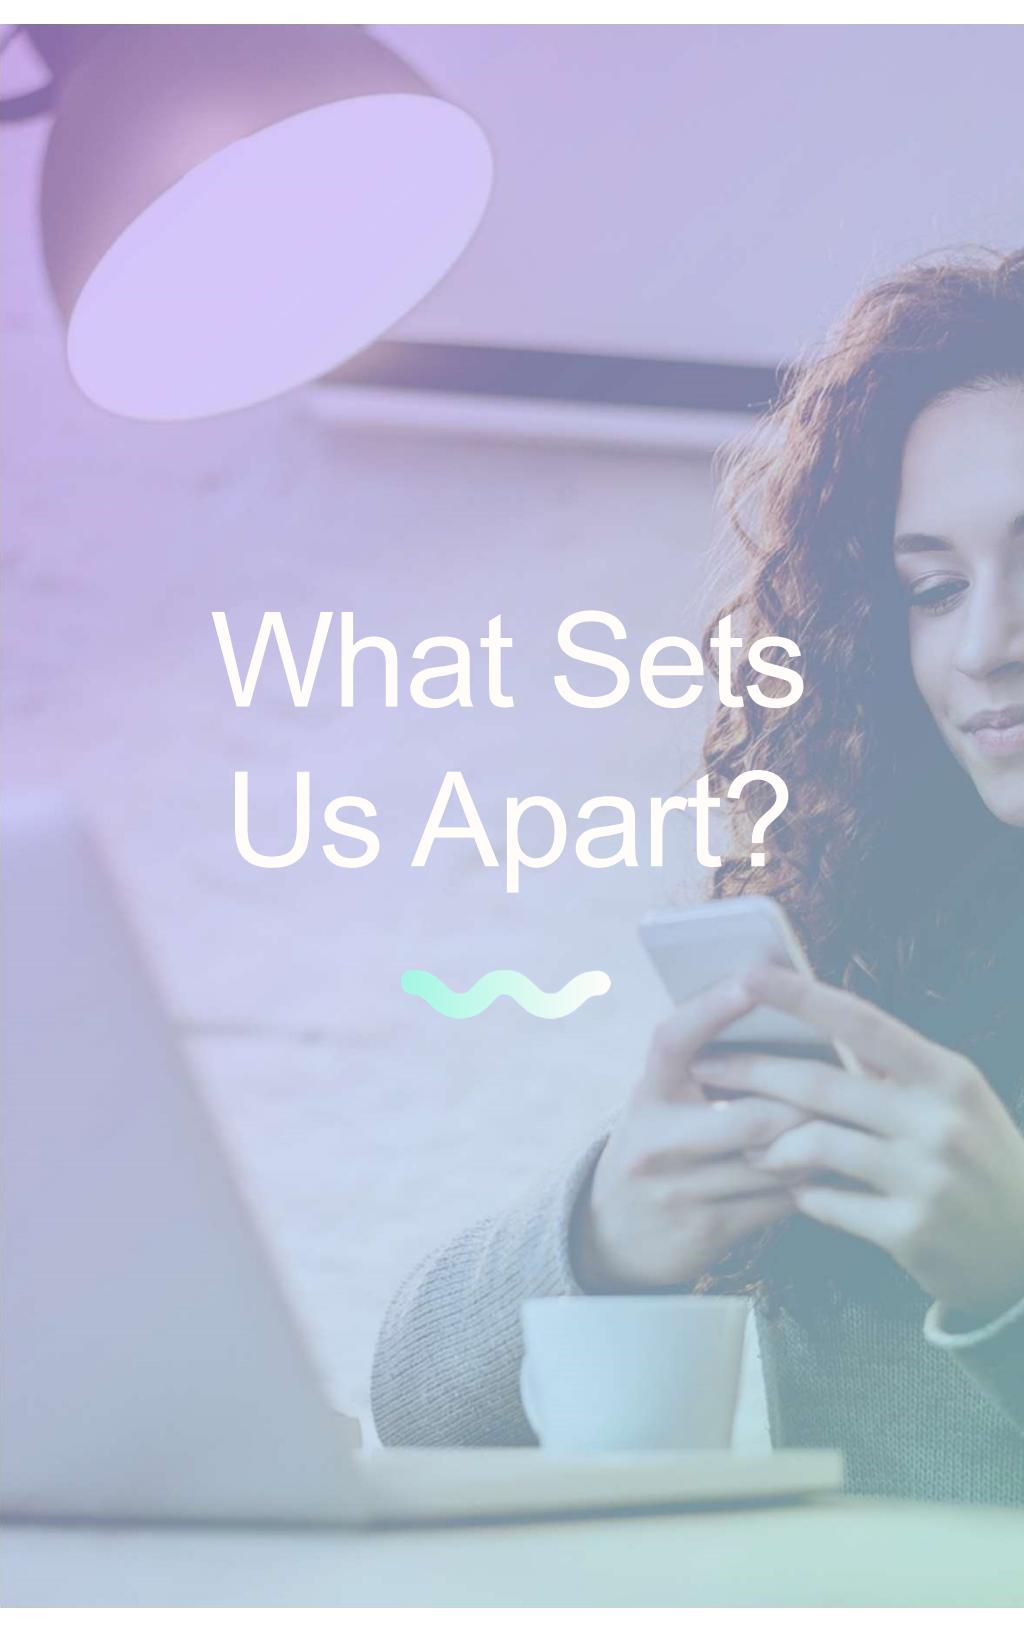

WORK  
AT HOME

PLANNED  
LAST DAY  
TO STUDY  
FOR EXAM

# The Future Goal

*YOU CAN EXPECT the same variety of work online as you would face-to-face. Online courses deliver a mix of quizzes, essays, assignments and group discussions. Depending on the course, you may work together with other students in groups, participate in peer review, or debate a variety of topics on the discussion boards.*
